**I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.**

**COMMENTS:** I live in an extremely rural area and rely on mail order to obtain

my much-needed medications. Your interference with this is unwarranted. I heartily protest. Use of my ~~specific compounded medicine~~ has been a major help in my health care. The specialty pharmacy I use (Women's Health Care) has no comparison nearby. I highly resent your desire to ~~limit sales across state lines~~. This creates undue hardship on me and many consumers like me. Government intervention in yet another vital area of my life is unacceptable. Please rescind your request for these limitations. Thank you for acting like you care about the people of this country and want to help them instead of being a reactionary watch dog agency that creates problems for the citizenry.
